Assembling our Jet Bridges	Additional service for assembling the jetbridges You will receive assembled jetbridges that only need to be arranged.	+20%
Layout privacy	Layout prepared only for a given project. We will not be able to implement it in the future in a regular offer.	+50%

Shipping

Prices according to separate shipping price list (available on our website).

Notes to price list

The final price of the layout is always determined individually. The percentage of services added to the value of the layout, which depends on the number of boards. Example of project price calculation (Real airport model airport - size 6 boards): Price per layout: $6 \times €12.5 = €72$; Developing buildings for self-assembly: $20\% \times €72 = €14.4$. Price of the whole project: €86,4 + Delivery costs according to the price list (may be free of charge).

The price list is for demonstration purposes only. Final price and delivery time depends on the specifics of the project. After sending your enquiry we will send you an offer with a concept of the layout.
