

Model Airports in A4 format

Display Series & Special Sets

Display Series

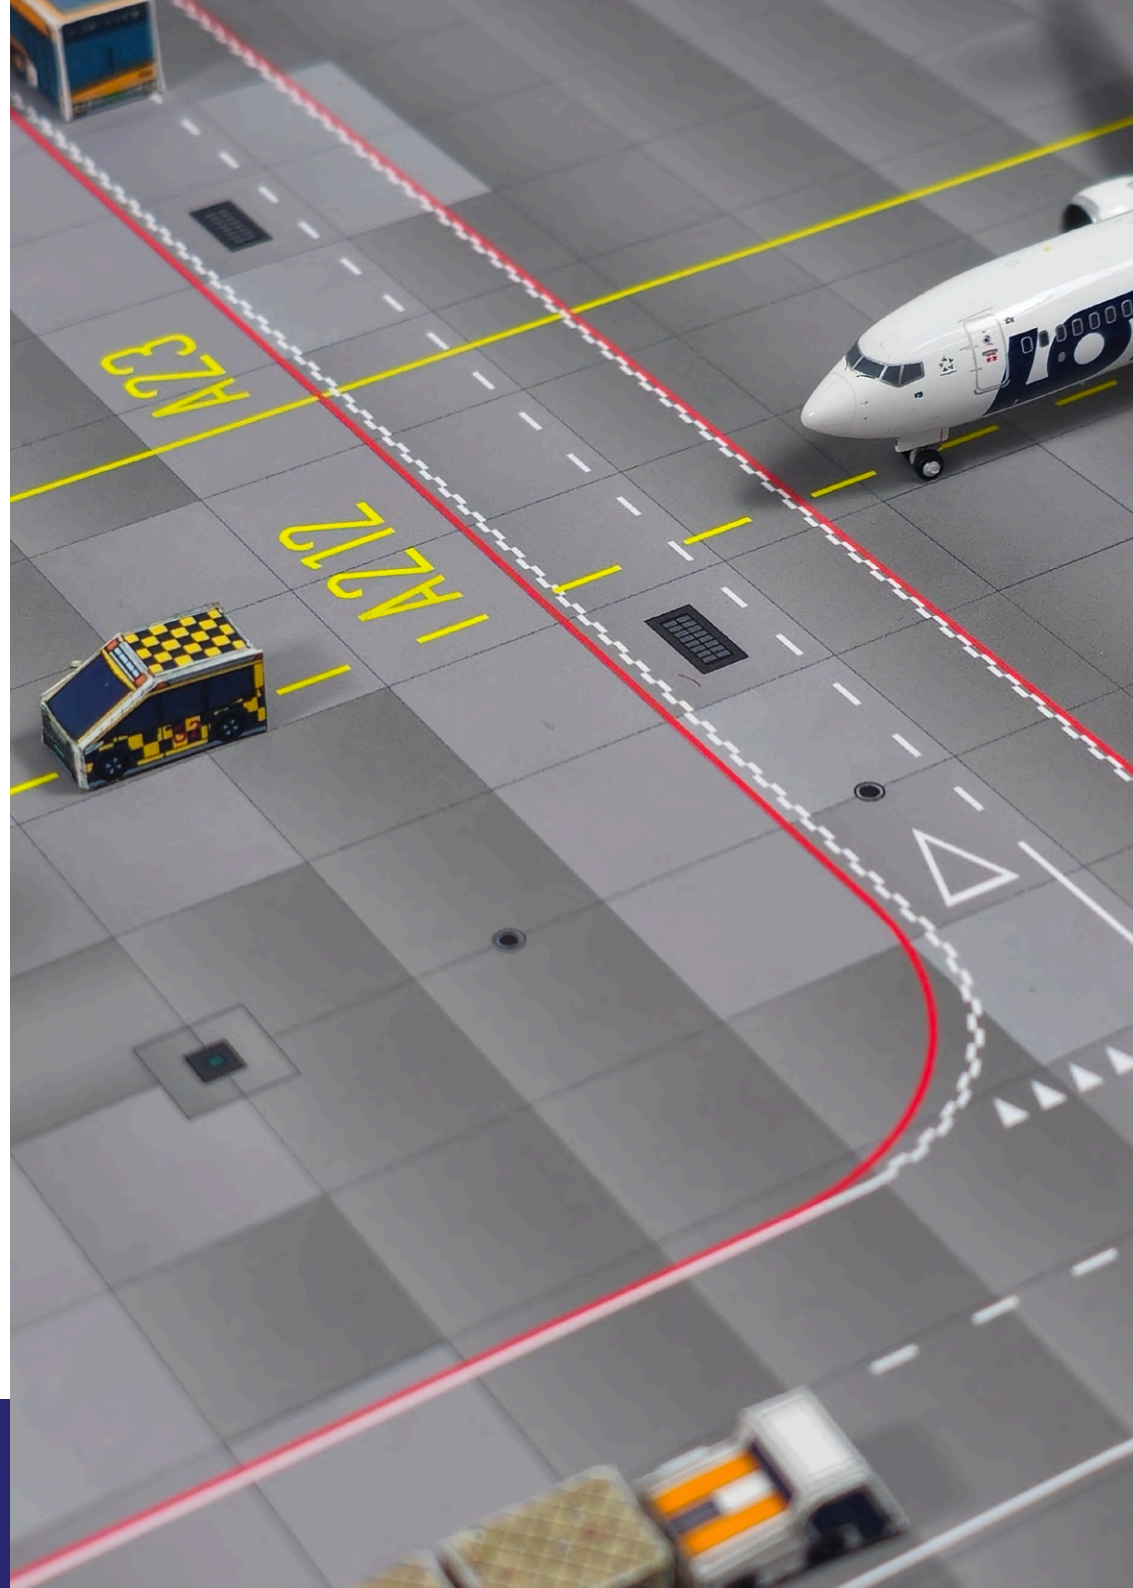

Our most popular series of products designed to showcase models as well as play with them. We offer sets in various formats from A5 to A2 as well as modular sets adapted to the available space for displaying models.

In 2025, all sets were updated for content and production standards. The changes are small and cosmetic*.

Updates:

- + New instructions and labels
- + Scale of difficulty of assembling buildings
- + More GSEs in each set
- + Spare elements, in the most difficult sets
- + Video instructions for each set in the series

*The changes do not affect the differences between previously produced sets.

New sets

Set in A2 format

Display Airport Ramp

SKU: 52501, 42501, 22501

New set modeled on the aprons of the world's largest airports. It allows you to set up models of the largest passenger aircraft and display them with GSE accessories. The new set is modular and allows combining it with the same set in a different variant of stand numbers. The layout and number of stands varies depending on the scale.

New sets

Set in A2 format

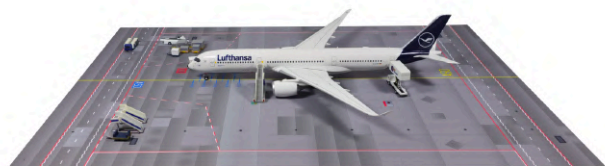

Display RWY 2

SKU: 52502, 42502, 22502

The second runway in this series, which presents a section of a runway modeled after the world's largest airports. This set is designed to showcase models and take pictures of them. Runway 25L/07R is actually 45 meters or 60 meters in 1/500 scale and can handle any size aircraft. Depending on the scale, the layout includes a different number of entrances.

1/400 Display RWY 2 (A2)

SKU: 42502

1/500 Display RWY 2 (A2)

SKU: 52502

Special Set

Set in A2 format

Domestic Airport with RWY

SKU: 52524, 42524

The special set for 2025 is our first set presented in the new A2 format. The new format offers what is a feature of the entire Display Series, in which almost every set is available as 1 board, with no visible joins. Domestic Airport with RWY is a fictitious regional airport with a modern terminal, which would be ideal as an airport in Europe but also in, for example, Canada or New Zealand.

Special Set 2025

1/400 Domestic Airport with RWY

About Display Series

Display Series is our core series of products designed for displaying and playing with models. The kits are available in many scales and formats so that everyone can find a kit for themselves.

The sets, which are mainly available as 1 board format from A5 to A2, offer a high-quality layout of stands or a small airfield that fits across the board. Some sets can be combined to form a larger layout. Sets that include stands are available in different variants that offer the following stand numbers

Each kit includes basic GSE and all the necessary buildings and other accessories to create a full diorama. Most kits have buildings that are very simple to assemble. Some sets are finished with high quality modeling grass.

The Display Series sets are our most popular collection and you can find the sets at our partners around the world.

Contents of each set: layout board, terminals and accessories for self-assembly, instructions and connectors between boards (selected sets). The finished boards, which can be finished with modeling grass, are 2 mm thick.
